PROFESSIONAL SUMMARY

Entry-level Python Full Stack Developer with hands-on experience in Python, FastAPI, React.js, JavaScript, REST APIs, PostgreSQL, and MySQL. Experienced in developing responsive web applications, designing CRUD-based REST APIs, integrating relational databases, and creating reusable frontend components. Strong foundation in frontend and backend development, API integration, database operations, responsive UI development, and version control using Git and GitHub. Demonstrated ability to build practical applications through internships and full-stack projects, with an interest in developing scalable software solutions using modern technologies.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, Java
Frontend Development: HTML5, CSS3, JavaScript, React.js, Redux, Responsive Web Design
Backend Development: FastAPI, REST APIs, CRUD Operations, Authentication
Databases: PostgreSQL, MySQL
Tools & Platforms: Git, GitHub, VS Code, Vercel
Core Concepts: API Integration, Database Integration, Reusable Components, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

Full Stack Development Intern **Dec 2024 – Jan 2025**
Technogrowth Software Solutions Pvt. Ltd., Pune

- Developed and maintained web application modules using Java with a focus on reusable and maintainable code.
- Designed responsive user interface components and contributed to improving cross-browser compatibility by approximately 25%.
- Worked on application development tasks and translated functional requirements into working software modules.
- Applied structured coding practices to improve code organization, maintainability, and application usability.

Web Development Intern **Feb 2024 – Mar 2024**
Coding Raja Technologies (AICTE Approved)

- Developed responsive and user-friendly web pages using HTML, CSS, and JavaScript.
- Optimized frontend implementation and reduced page load time by approximately 20%.
- Applied responsive design principles to improve usability across desktop and mobile devices.
- Implemented structured and reusable frontend components to create consistent web page layouts.

PROJECTS

Student Management System *React.js, FastAPI, PostgreSQL*

- Developed a full-stack Student Management System using React.js for the frontend and FastAPI for the backend.
- Developed REST APIs supporting CRUD operations for creating, retrieving, updating, and deleting student records.
- Integrated PostgreSQL for persistent data storage and connected frontend components with backend APIs.
- Structured the application into frontend, backend, and database layers to support maintainable full-stack development.

Weather Application *React.js, JavaScript, OpenWeatherMap API*

- Built a responsive weather application using React.js and JavaScript to display real-time weather information.
- Integrated the OpenWeatherMap API to fetch and dynamically display weather data.
- Developed an interactive and user-friendly interface optimized for desktop and mobile devices.

Personal Portfolio Website *React.js, HTML, CSS, JavaScript*

- Designed and deployed a responsive personal portfolio website showcasing projects, technical skills, certifications, and professional experience.
- Created structured frontend sections to present professional information in a clear and recruiter-friendly format.
- Optimized the website layout for usability across different screen sizes and devices.

EDUCATION

Bachelor of Engineering – Information Technology **2022 – 2026**
Pravara Rural Engineering College, Ahilyanagar, Maharashtra **CGPA: 8.72**
Higher Secondary Education **2020 – 2022**
Maharashtra State Board **71%**

CERTIFICATIONS

- NPTEL Certification in Database Management Systems – IIT Kharagpur
- Full Stack Development with Python Certification
- NPTEL Certification in Soft Skills
